How does the job content relate to the field of study?

What are the skills learned in classes that will be most valuable on the job include:

- Problem-solving skills
- System Analysis
- Communication

What content of your job is not related to your field of study:

- None

What new skill did you acquire this month:

- Programming skills
- Critical thinking skills
- Visualization

Please provide an overview of your performance including success, achievements, and failures.
Success: including training completed: ❖ Successfully managed to create a web application. ❖ Successfully managed to add multiple pages on a website. ❖ Successfully managed to have a better understanding of Angular and Springboot. Achievements: ❖ Improved problem-solving skills Failure/ Challenges: ❖ Adding more style to the website.

How can my mentor and project manager help you to succeed?
❖ Provide more examples and a tutorial for better understanding. ❖ Provide feedback on performance from submitted tasks. Offer advice on how to overcome some of the challenges I come across with.

Stop-start Continue framework
The things I need to stop doing to become more effective on the job. ❖ Lack of accountability. ❖ Not asking for help when in need of one. ❖ Poor sleeping habits. The things I need to learn or start doing more to become more effective on the job?

- Effective communication.
- Time management
- Research

I hereby confirm that the monthly report was prepared as a true reflection of the status.
